• Sold retail

Aluminum frame with sporty seating position, components above average for this price range. Little room for the feet.

BULLS

Night Falcon

8.2 KG - 18.1 LBS

€ 1499 / \$ 2068 / £ 1247

The Bulls women's racer is based on the relatively simple aluminum frame from the Falcon series - ultimately only the decor turns it into a women's bicycle. Compared to the standard model, the geometry hasn't changed, it has a somewhat race-oriented riding position. Because the front of the frame is rather short, there isn't much space between the feet and the front wheel. The bike's equipment is a highlight: it has the complete 11-speed Ultegra group with direct-mount brakes. The bike is completed with a solid, quite heavy wheelset and voluminous quality tires from Schwalbe. Our tester felt that the FSA handlebars with their flattened tops were very pleasant, and the tightly padded men's saddle didn't cause any problems. Some might see the decor's floral ornaments as playing too much to a women's racing bike cliché - but that's clearly a matter of taste.
